

## Freight Calculator for SYSPRO

### Overview

To enhance the functionality of the Shipping System by calculating the cost of freight and adding that cost plus the charges to SYSPRO sales orders.

### The Value of Freight Calculator for SYSPRO

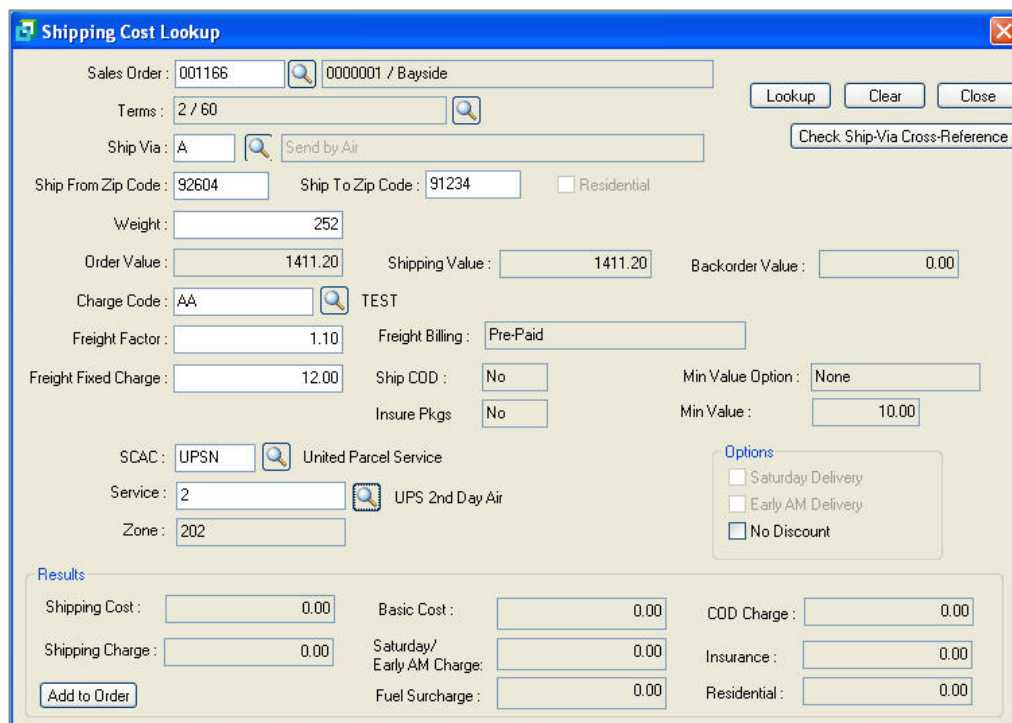

- Eliminates the need for separate systems per carrier
- Select freight rates from multiple carriers:
  - Automatic download and installation of UPS freight rates
  - Import capability for DHL rates
  - Acquire FedEx rates by accessing the FedEx Ship Manage Server
- LTL rates calculated on standard NMFC classes and shipment weights
- Auto-populates appropriate cross-references
- Use freight calculator stand-alone to estimate freight costs/charges
- No additional workstation software is required

### Matching Freight Calculator to your business

- Simple setup screens in SYSPRO
- Customer specific parameters for freight and additional charges
- Adjust calculated freight with additional handling or other service charges
- Include carrier and self-insurance rates
- Define how the calculated freight appears on the sales orders
- Automatic insertion of shipment information into the sales orders

### Integration

- Freight Calculator integrates with:
  - Shipping Solution for SYSPRO
  - FedEx, UPS and DHL

The screenshot shows the 'Shipping Cost Lookup' application window. It contains various input fields for shipping details and a 'Results' section at the bottom.
