

Shipping for SYSPRO

Overview

SYSPRO Shipping interfaces with StarShip to facilitate efficient boxing and shipping of orders with accurate freight information based on actual shipping weights and current carrier rates.

The Value of Shipping for SYSPRO

- Links to all major carriers such as UPS, FEDEX, USPS, Airborne, etc.
- Real-time access to rates
- Pass the shipping method to the StarShip carrier
- Prints carrier-approved shipping labels and tags on thermal label printers
- Supports electronic scales for automatic reading of the parcel weight
- Automatic update of order status
- Actual freight costs and shipping fees calculated real-time
- Parcel information, tracking numbers and shipment weight written to sales order
- Advanced shipment notifications sent via email
- Track packages on the carriers web site
- Improves invoice generation time and accounts receivable

Matching Shipping for SYSPRO to your business

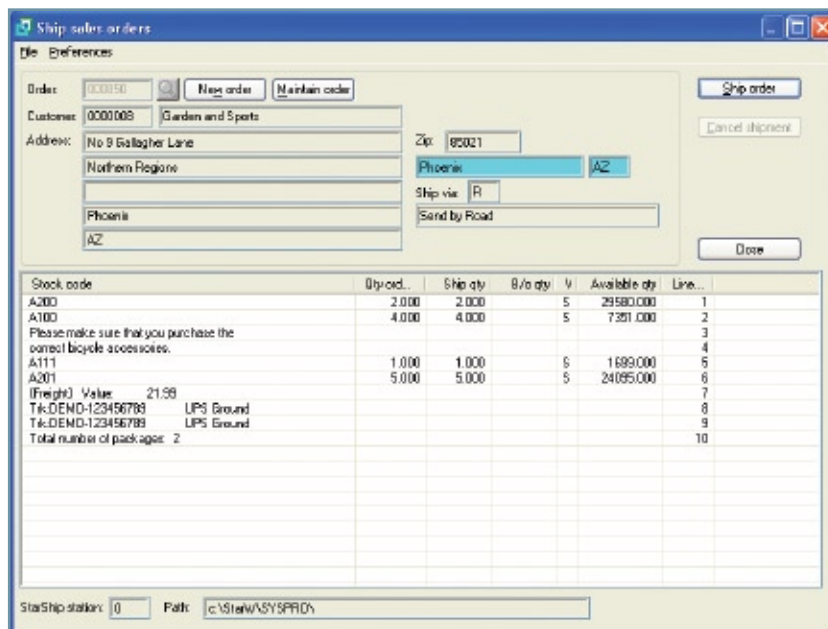

- User-defined carriers and rates can be used
- Estimate shipping costs during order entry
- Packers see only the orders that are due to ship
- Records items packed per box
- Allows multiple boxes per order
- Query option to verify box content
- Optionally change order status for invoicing
- Produce Bill of lading and Shipping Manifest documentation

Integration

- Integrates with SYSPRO Sales Orders and StarShip

Audit Trails and Reporting

- StarShip provides Insurance, Daily Shipments by Customer, and Shipment History reports
- Supports both standard and custom reports
- History button allows easy access to shipment status and tracking
